1 **SEC. 2. FINDINGS.**

2 Congress makes the following findings:

3 (1) Americans want affordable, guaranteed pri-
4 vate health coverage that makes them healthier and
5 can never be taken away.

6 (2) American health care provides primarily
7 “sick care” and does not do enough to prevent
8 chronic illnesses like heart disease, stroke, and dia-
9 betes. This results in significantly higher health
10 costs for all Americans.

11 (3) Staying as healthy as possible often requires
12 an individual to change behavior and assume more
13 personal responsibility for his or her health.

14 (4) Personal responsibility for one’s health
15 should include purchasing one’s own private health
16 care coverage.

17 (5) To accompany this new focus on staying
18 healthy and personal responsibility, our government
19 must guarantee that all Americans receive private
20 affordable health coverage that can never be taken
21 away.

1 (6) Financing this guarantee should be a
2 shared responsibility between individuals, the Gov-
3 ernment, and employers.

4 (7) The \$2,200,000,000,000 spent annually on
5 American health care must be spent more effectively
6 in order to meet this guarantee.

7 (8) This guarantee must include easier access
8 to understandable information about the quality,
9 cost, and effectiveness of health care providers, prod-
10 ucts, and services.

11 (9) The fact that businesses in the United
12 States compete globally against businesses whose
13 governments pay for health care, coupled with the
14 aging of the American population and the explosive
15 growth of preventable health problems, makes the
16 status quo in American health care unacceptable.

21 carrying out the program is a one-stop partner
22 for the one-stop delivery system involved, other
23 than the provision of housing, health insurance,
24 or another supportive service that is wholly un-
25 related to employment, service, or training as-

1 sistance (as determined by the Secretary of
2 Labor); and

3 (C) any other activity described in title I
4 or V of that Act (29 U.S.C. 2801 et seq., 9271
5 et seq.), other than the provision of housing,
6 health insurance, or another supportive service
7 that is wholly unrelated to employment, service,
8 or training assistance (as so determined).

9 (2) HEALTH CARE PROVIDERS.—The term
10 “health care providers” includes nurses and other
11 nonphysician providers.

 21 **HEALTH CARE DOLLAR**

22 **SEC. 801. COST-CONTAINMENT RESULTS OF THE HEALTHY**
 23 **AMERICANS ACT.**

24 Congress finds that the Healthy Americans Act will
 25 result in the following:

1 (1) Private insurance companies will be forced
2 to hold down costs and will slow the rate of growth
3 because they are required to offer standardized
4 Healthy American Private Insurance plans.

5 (2) Administrative savings will be derived from
6 reducing employers' and insurers' administrative
7 costs relating to health care.

8 (3) Private insurance companies will implement
9 uniform billing and common claims forms.

10 (4) Congress will reclaim Medicare and Med-
11 icaid disproportionate share hospital (DSH) pay-
12 ments because previously uninsured persons will go
13 to providers on an outpatient basis instead of an
14 emergency department.

15 (5) State and local governments will save
16 money on programs they operated for the uninsured
17 before enactment of this Act.

18 (6) The Federal Government will save money
19 on Federal tax subsidies that reward inefficient care
20 and are regressive.

21 (7) The Federal Government and the private
22 sector will save money if the Food and Drug Admin-
23 istration determines whether products provide new
24 value.

1 (8) Reducing medical errors will save the gov-
2 ernment and the private sector money.

3 (9) Requiring hospitals to send large bills to pa-
4 tients for their review will reduce errors in medical
5 billing and force major providers to be more cost
6 conscious.

7 (10) Requiring insurers to reimburse for quality
8 and cost effective services will hold down private sec-
9 tor costs.

10 (11) Reduction of Medicare's restriction on bar-
11 gaining power for prescription drugs will reduce
12 costs for sole source drugs and other medications.

13 (12) Establishment of electronic medical
14 records by insurers will create savings.

15 (13) Publication of cost and quality data will
16 enable people to look up by zip code affordable high-
17 quality providers.
